

SAFETY DATA SHEET (SDS)

		Sectio	on 1. Idei	ntification			
Product identifie	er ASC-92						
Other means of identification 15454							
Recommended use and restrictions on use Protects against seizure and galling of metal parts, assemblies and equipment.							
Initial supplier identifierAsalco Inc. 44, ch. Des Ursulines, Stanstead, Québec (Canada), J0B 3E0							
Telephone 819-876-2211; Fax 819-876-5373; Internet <u>www.asalco.com</u>							
Emergency telephone number/restriction on use Canada – CANUTEC 24 hour number 613-996-6666							
Section 2. Hazard identification							
Classification of hazardous product (name of the category or subcategory of the hazard class)							
Skin sensitization (category 1)							
Carcinogenicity (
Specific target or	gan toxicity – repeat	ed exposure (Category 1), O	organs		-		
Information elen	nents <u>(</u> symbols, sign	al words, hazard statemer	nts and pr	recautionary statements of the category/su	ibcategory)		
DANGER H317 May cause an allergic skin reaction. H351 Suspected of causing cancer. H372 Causes damage to organs (lungs) through prolonged or repeated exposure (inhalation). P201 Obtain special instructions before use. P202 Do not handle until all safety precautions have been read and understood. P260 Do not breathe dusts or mists. P264 Wash hands/nails/face thoroughly after handling. P270 Do not eat, drink or smoke when using this product. P272 Contaminated work clothing should not be allowed out of the workplace. P280 Wear protective gloves/ protective clothing/ eye protection/ face							
protection. P302 + P352 IF ON SKIN: wash with plenty of water. P332 + P313 IF SKIN irritation or rash occurs: Get medical attention. P362 + P364 Take off contaminated clothing and wash it before reuse. P308+P313 IF exposed or concerned: Get medical attention. P314 Get medical attention if you feel unwell. P405 Store locked up. P501 Dispose of contents/container into safe container in accordance with local, regional or							
national regulatio		ne loeked up. 1501 Dispos	e or come	ints, container into sure container in accord	linee with local, regional of		
Other hazards k

Inhalation	IF INHALED. Rer			fortable for breathing. Call a doctor if you for	eel unwell		
Ingestion							
ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.						
Skin contact	IF ON SKIN: wash with plenty of water. IF SKIN irritation or rash occurs: Get medical attention. Take off contaminated						
	clothing and wash it before reuse.						
Eye contact IF IN EYES, Rinse cautiously with water for several minutes (5-10 minutes). Remove contact lenses, if present and easy to do.							
	Most important symptoms and effects (acute or delayed) May cause an allergic skin reaction.						
Indication of immediate medical attention/special treatment In all cases, call a doctor. Do not forget this document.							
Section 5. Fire-fighting measures							
Specific hazards	of the hazardous p	roduct (hazardous combus	0	0			
	d other irritant/toxic		•				
Suitable and unsuitable extinguishing media							
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.							
Special protective equipment and precautions for fire-fighters							
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper							
protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans.							
Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.							
Section 6. Accidental release measures							
Personal precautions, protective equipment and emergency procedures Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up							
			an-up is co	onducted by trained personnel only. All per	rsons dealing with clean-up		
		equipment (See Section 8).					
		nent and cleaning up	ontein 1	abaarb any apilled liquid accounter to a 'd'	art absorbant material 41-		
				l absorb any spilled liquid concentrate with in			
place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.							

Section 7. Handling and storage

Precautions for safe handling

Wear gloves/protective clothing/eye protection/face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values) Exposure limits: CAS 7429-90-5 – ACGIH – TLV-TWA 1 mg/m³ & PEL-TWA 1 mg/m³; CAS 7440-02-0 – ACGIH – TLV-TWA 1.5 mg/m³ & PEL-TWA 1 mg/m³;

Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

Section 9. Physical and chemical properties							
Appearance, physical state/colour	Gray paste	Vapour pressure	Not available				
Odour Characteristic		Vapour density Not available		le			
Odour threshold Not available	Relative density 1						
pH Not available	Solubility Insoluble						
Melting/freezing point Not available	Partition coefficient - n-octanol/water Not available						
Initial boiling point/range Not availab	Auto-ignition temperature Not available						
Flash $>165^{\circ}C$ (PMCC)		Decomposition temperature Not available					
point							
Evaporation rate Not available		Viscosity Not available					
Flammability (solids and gases) Not available		VOC Not available					
Upper and lower flammability/explosive limits Not available		Other None known					
Section 10. Stability and reactivity							
Reactivity							
Does not react under the recommended storage and handling conditions prescribed.							
Chemical stability							
Stable under the recommended storage and handling conditions prescribed.							
Possibility of hazardous reactions							
None							
Conditions to avoid (static discharge, shock or vibration)							
None							
Incompatible materials							
Oxidizing materials; etc.							
Hazardous decomposition products							
None known							

Section 11. Toxicological information					
Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)					
May cause an allergic skin reaction. Suspected of causing cancer. Causes damage to organs (lungs) through prolonged or repeated exposure (inhalation).					
Symptoms related to the physical, chemical and toxicological characteristics					
Skin irritation, redness, stinging, pain; Eye irritation, redness, tearing. Mouth, throat or respiratory tract irritation.					
Delayed and immediate effects (chronic effects from short-term and long-term exposure)					
Skin Sensitization – Possible; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – Ingredient listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – No data available; Specific Target Organ Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – Possible; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.					
Numerical measures of toxicity (ATE; LD ₅₀ & LC ₅₀)					
CAS 57-11-4 LD_{50} Oral - Rat - 4600 mg/kg;					
ATE not available in this document.					
Section 12. Ecological information					
Ecotoxicity (aquatic and terrestrial information)					
No data available.					
Persistence and degradability No data available					
Bioaccumulative potential No data available					
Mobility in soil No data available					
Other adverse effects No data available					
Section 13. Disposal considerations					
Information on safe handling for disposal/methods of disposal/contaminated packaging					
Dispose of contents/container into safe container in accordance with local, regional or national regulations.					
Section 14. Transport information					
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations					
Not regulated					
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)					
Not regulated					
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)					
Not regulated					
Special precautions (transport/conveyance) None					
Environmental hazards (IMDG or other) None					
Bulk transport (usually more than 450 L in capacity) Possible					
Section 15. Regulatory information					
Safety/health Canadian regulations specifics Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).					
Environmental Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL					
Safety/health/environmental outside regulations specifics					
United States OSHA information: This product is regulated according to OSHA (29 CFR).					
United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.					
United States TCSA information: Refer to the ingredients listed in Section 3.					
National Fire Protection Association (NFPA):					
HEALTH: 1 FLAMMABILITY: 1 INSTABILITY: 0 SPECIAL HAZARDS: Refer to Section 2 & 3.					
HAZARD SCALE: $0 = Minimal$ $1 = Slight$ $2 = Moderate$ $3 = Serious$ $4 = Severe$
